

rotated about said monitor lamp arm to illuminate said keyboard, said monitor or any nearby regions.

**16.** The computer keyboard light of claim **15** wherein said monitor plate comprises a vertically-planar member affixed to said computer monitor.

**17.** The computer keyboard light of claim **15** wherein said monitor plate comprises rotatable mounting means for allowing said monitor lamp unit to rotate about an axis perpendicular to said monitor plate.

**18.** The computer keyboard light of claim **15** wherein said monitor lamp arm is telescoping to allow it to be extended in the direction of said monitor lamp arm.

**19.** The computer keyboard light of claim **15** wherein said monitor lamp arm can be bent or twisted in a transverse direction.

**20.** The computer keyboard light of claim **15** wherein said monitor lamp unit further comprises rotatable mounting means for allowing said monitor lamp head to rotate about said distal end of said monitor lamp arm.

**21.** The computer keyboard light of claim **20** wherein said rotatable mounting means comprises a hinge means to enable said monitor lamp head to rotate about an axis perpendicular to said monitor lamp arm.

**22.** The computer keyboard light of claim **15** wherein said monitor lamp unit further comprises means for allowing said monitor lamp head to rotate about an axis parallel to said monitor lamp arm.

**23.** The computer keyboard light of claim **15** wherein said monitor lamp head further comprises a light bulb, said control panel comprises power supply means for providing current to said light bulb and switch means for selectively allowing current to flow to said light bulb for illumination thereof.

**24.** The computer keyboard light of claim **15** wherein the length of said monitor lamp head is between about 33% and about 100% of the length of said monitor lamp arm.

**25.** The computer keyboard light of claim **15** wherein the length of said monitor lamp head is between about 25% and about 50% of the width of said control panel.

**26.** The computer keyboard light of claim **15** wherein the light of said monitor lamp arm is between about 40% and about 85% of the width of said control panel.

**27.** The computer keyboard light of claim **1** wherein said control panel comprises electrical circuitry and a connection to a power source.

**28.** The computer keyboard light of claim **27** wherein said control panel comprises an internal rechargeable power source.

**29.** The computer keyboard light of claim **27** wherein said electrical circuitry comprises means for selectively receiving an external power supply of either 12 or 24 volt, either AC or DC.

**30.** The computer keyboard light of claim **29** wherein said external power supply comprises a 120V AC/12V AC common adaptor.

**31.** The computer keyboard light of claim **29** wherein said external power supply comprises a common 12V DC mocar cell.

**32.** The computer keyboard light of claim **29** wherein said external power supply comprises a common 24V DC mocar cell.

**33.** The computer keyboard light of claim **1** wherein said control panel comprises adaptor means for electrically coupling thereto at least one additional lamp unit.
